

OKO CHRISTIAN

FRONTEND DEVELOPER (REACT)

BIO

Oko Christian is a passionate Frontend Developer specializing in React.js with a strong background in building dynamic and responsive web applications. With 6 months of professional experience, Christian has contributed to projects ranging from library management systems to football scouting platforms. He is committed to delivering user-friendly interfaces, writing clean code, and collaborating effectively within agile teams. Christian constantly seeks to enhance his skills and enjoys turning innovative ideas into digital solutions.

PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented Frontend Developer with 6 months of experience creating responsive and interactive web applications using React.js. Skilled in building modern user interfaces, integrating REST APIs, and optimizing web performance. Passionate about crafting intuitive user experiences and continuously learning new frontend technologies. Adept at working in team environments and contributing to cross-functional project success.

PROFESSIONAL EXPERIENCE

- Developed responsive and dynamic user interfaces using React.js, JavaScript, HTML5, and CSS3.
- Integrated REST APIs to fetch and display dynamic content for various web applications.
- Collaborated with backend teams and participated in Agile sprints for feature delivery.
- Strengthened frontend security by enhancing form validation and preventing XSS vulnerabilities.
- Improved the responsiveness and performance of key web pages across devices.

GITHUB: [HTTPS://GITHUB.COM/DEV-CAE-ZAR](https://github.com/dev-cae-zar)

SKILLS

JavaScript (ES6+), HTML5, CSS3

React.js, React Context API, Redux (basic)

Git, GitHub, Figma

REST APIs (using Axios, Fetch API)

Chrome DevTools, React Developer Tools

Problem-solving, Teamwork, Communication

EDUCATION

B.Sc(ed) Computer Science
University of Kora, Nigeria | October 2023 – April 2024

Final Year Project: Collaborated in a team to create a Football Scouting Application that connects grassroots footballers with professional scouts and clubs.

COURSES

Completed a six-month professional training program in Frontend Development at the Curve Africa, gaining hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and modern frameworks like React.

PROJECTS

BOOK LIBRARY MANAGEMENT SYSTEM

- Built a fully functional book library management application using React.js.
- Implemented features for book borrowing, returning, user registration, and library inventory management.
- Integrated RESTful APIs to handle dynamic data operations and improved user experience with responsive designs.

FOOTBALL SCOUTING APPLICATION (FINAL YEAR PROJECT)

- Part of a team that developed a football scouting platform aimed at bridging the gap between grassroots footballers and professional scouts.
- Built user interfaces with React.js, enabling player profile creation, video uploads, and scout interactions.
- Collaborated in API integration and UI/UX improvements for the platform.
